Materia.

dal latino *mater* : ciò che genera, sostiene, dà forma.

È il primo gesto del progetto, il supporto su cui l'idea prende vita.

Non è solo sostanza, ma un sistema di segni, texture, profondità.

La materia guida la forma, determina il linguaggio e definisce l'identità dello spazio.

Matter.

from the Latin *mater* : that which generates, supports, gives form.

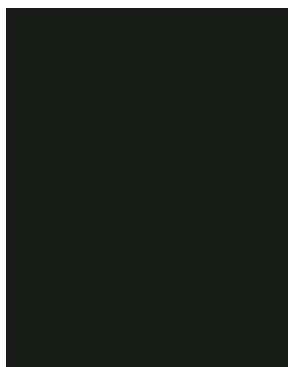

It is the first step in the design process, the foundation on which the idea comes to life. It is not just substance, but a system of signs, textures and depth. Matter guides form, determines language and defines the identity of space.

legni WOOD

**Durabilità e cura del dettaglio.
Il legno interpreta la natura, genera ritmo
visivo, equilibrio cromatico, calore
progettuale e identità senza tempo.**

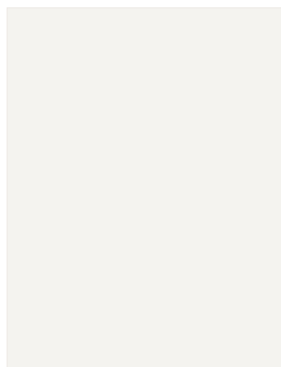

Durability and attention to detail.
Wood interprets nature, creating visual rhythm,
chromatic balance, design warmth, and
timeless identity.

metalli

metals

Vibrazione, Forza ed Eleganza
forgiano il metallo, che scolpisce gli spazi
con decisione, espressività geometrica e un
carattere audace.

Vibration, Strength and Elegance
shape the metal, which sculpts spaces with
a bold identity, geometric expressiveness
and a daring character.
